Our plans for Bolton

Our plan sets out how we will invest in YOUR health and social care services over the next five years.

We’ve been awarded £28.8 million.
In 2017-18 we’ll be spending £13.2 million — here are a few of the things we’re planning...

As part of devolution, Greater Manchester was awarded a Transformation Fund to support big changes to health and social care.

What can YOU expect?

- We want to build things around you.
- Joined up services and keyworkers to make things simpler.
- Help to join in with what’s going on in your community so you can live a healthier life.
- More care close to home so you won’t always need to go to hospital.
- Good quality hospital care, there when you need it.

Community based assessments £1.9M

Medical assessments closer to home rather than the hospital, to prevent, reduce or delay a long term move to a care home.

Boosting community action £162K

More help to find groups and activities that support your health and wellbeing.

Expanded dementia service £53K

More people with dementia can receive a proper diagnosis and the support they need.

Improvements at GP Practices £1.7M

GPs will be supported by specialists including physiotherapists, pharmacists, and mental health workers.

Better access to talking therapies £397K

Quicker access to talking therapies, like counselling, for those who need it.

Preventing ill health £575K

More money for community activities to help you stay fit and well.

New mental health crisis centre £151K

Support and a place of safety, helping to avoid hospital admissions.

Technology boost for Care Homes £269K

Phone or video consultations with GPs for care home residents.

Local organisations are working more closely together than ever to make a real difference.
